NONFINAL OFFICE ACTION

Response deadline. File a response to this nonfinal Office action within three months of the “Issue date” below to avoid [abandonment](#) of the application. Review the Office action and respond using one of the links to the appropriate electronic forms in the “How to respond” section below.

Request an extension. For a fee, applicant may [request one three-month extension](#) of the response deadline prior to filing a response. The request must be filed within three months of the “Issue date” below. If the extension request is granted, the USPTO must receive applicant's response to this letter within six months of the “Issue date” to avoid abandonment of the application.

Issue date: September 14, 2023

The referenced application has been reviewed by the assigned trademark examining attorney. Applicant must respond timely and completely to the issue(s) below. 15 U.S.C. §1062(b); 37 C.F.R. §§2.62(a), 2.65(a); TMEP §§711, 718.03.

The trademark examining attorney has searched the USPTO database of registered and pending marks and has found no conflicting registered marks that would bar registration under Trademark Act Section 2(d). 15 U.S.C. §1052(d); TMEP §704.02.

SUMMARY OF ISSUES:

- Prior-filed application.
- Refusal under Trademark Act Section 2(e)(1).
- Request for information.
- Refusal under Trademark Act Sections 1, 2, and 45 (Class 9 only).
- Identification requirement.

PRIOR FILED APPLICATION

The filing date of pending U.S. Application Serial No. 90491284 precedes applicant's filing date. See attached referenced application. If the mark in the referenced application registers, applicant's mark may be refused registration under Trademark Act Section 2(d) because of a likelihood of confusion between the two marks. *See* 15 U.S.C. §1052(d); 37 C.F.R. §2.83; TMEP §§1208 *et seq.* Therefore, upon receipt of applicant's response to this Office action, action on this application may be suspended pending final disposition of the earlier-filed referenced application.

In response to this Office action, applicant may present arguments in support of registration by addressing the issue of the potential conflict between applicant's mark and the mark in the referenced application. Applicant's election not to submit arguments at this time in no way limits applicant's right to address this issue later if a refusal under Section 2(d) issues.

SECTION 2(E)(1) REFUSAL - MERELY DESCRIPTIVE

Registration is refused because the applied-for mark merely describes a feature, ingredient, characteristic, purpose, function, intended audience of applicant's goods and/or services. Trademark Act Section 2(e)(1), 15 U.S.C. §1052(e)(1); *see* TMEP §§1209.01(b), 1209.03 *et seq.*

A mark is merely descriptive if it describes an ingredient, quality, characteristic, function, feature, purpose, or use of an applicant's goods and/or services. TMEP §1209.01(b); *see, e.g., In re TriVita, Inc.*, 783 F.3d 872, 874, 114 USPQ2d 1574, 1575 (Fed. Cir. 2015) (quoting *In re Oppedahl & Larson LLP*, 373 F.3d 1171, 1173, 71 USPQ2d 1370, 1371 (Fed. Cir. 2004)); *In re Steelbuilding.com*, 415 F.3d 1293, 1297, 75 USPQ2d 1420, 1421 (Fed. Cir. 2005) (citing *Estate of P.D. Beckwith, Inc. v. Comm'r of Patents*, 252 U.S. 538, 543 (1920)).

The applicant seeks registration of the mark BIO SITES for use in connection with "Computer software for displaying, organizing, aggregating, and optimizing social media profiles, links, and user-selected content; Application software for for displaying, organizing, aggregating, and optimizing social media profiles, links, and user-selected content; Downloadable software applications for displaying,

organizing, aggregating, and optimizing social media profiles, links, and user-selected content" and "Provision of online non-downloadable software for displaying, organizing, aggregating, and optimizing social media profiles, links, and user-selected content; Software as a service (SAAS) featuring software for displaying, organizing, aggregating, and optimizing social media profiles, links, and user-selected content."

As demonstrated by the attached Internet evidence, the wording BIO means a biography, often a very brief one. The term SITE is defined as one or more Internet addresses at which an individual or organization provides information to others, especially: WEBSITE.

The combined wording immediately conveys information to the consumer relative to the software goods and services. Specifically, the software and software services are used to provide biographical information on websites.

In addition, the attached third-party internet research shows the wording BIO SITES to communicate features/functions relative to software and software services. Therefore, the wording merely describes applicant's goods and/or services.

For the foregoing reasons, the mark is merely descriptive of applicant's goods and/or services, and registration is therefore refused.

Supplemental Register (Use)

The applied-for mark has been refused registration on the Principal Register. Applicant may respond to the refusal by submitting evidence and arguments in support of registration and/or by amending the application to seek registration on the Supplemental Register. See 15 U.S.C. §1091; 37 C.F.R. §§2.47, 2.75(a); TMEP §§801.02(b), 816. Amending to the Supplemental Register does not preclude applicant from submitting evidence and arguments against the refusal(s). TMEP §816.04.

Disclaimer of Generic Wording

Applicant is advised that, if the application is amended to seek registration on the Principal Register under Trademark Act Section 2(f) or on the Supplemental Register, applicant will be required to disclaim "SITES" because such wording appears to be generic in the context of applicant's goods and/or services. See 15 U.S.C. §1056(a); *In re Wella Corp.*, 565 F.2d 143, 144, 196 USPQ 7, 8 (C.C.P.A. 1977); *In re Creative Goldsmiths of Wash., Inc.*, 229 USPQ 766, 768 (TTAB 1986); TMEP §1213.03(b).

Applicant may submit a disclaimer in the following format:

No claim is made to the exclusive right to use "SITES" apart from the mark as shown.

TMEP §1213.08(a)(i).

For an overview of disclaimers and instructions on how to provide one using the Trademark Electronic Application System (TEAS), see the [Disclaimer webpage](#).

Request for Information

Due to the descriptive nature of the applied-for mark, applicant must provide the following information and documentation regarding the goods and/or services and wording appearing in the mark:

(1) Fact sheets, instruction manuals, brochures, advertisements and pertinent screenshots of applicant's website as it relates to the goods and/or services in the application, including any materials using the terms in the applied-for mark. Merely stating that information about the goods and/or services is available on applicant's website is insufficient to make the information of record.;

(2) If these materials are unavailable, applicant should submit similar documentation for goods and services of the same type, explaining how its own product or services will differ. If the goods and/or services feature new technology and information regarding competing goods and/or services is not available, applicant must provide a detailed factual description of the goods and/or services. Factual information about the goods must make clear how they operate, salient features, and prospective customers and channels of trade. For services, the factual information must make clear what the services are and how they are rendered, salient features, and prospective customers and channels of trade. Conclusory statements will not satisfy this requirement

See 37 C.F.R. §2.61(b); TMEP §§814, 1402.01(e).

If applicant submits webpage evidence to satisfy this requirement, applicant must provide (1) an image of the webpage, (2) the date it was accessed or printed, and (3) the complete URL address. *In re ADCO Indus.-Techs., L.P.*, 2020 USPQ2d 53786, at *2 (TTAB 2020) (citing *In re I-Coat Co.*, 126 USPQ2d 1730, 1733 (TTAB 2018)); TMEP §710.01(b). Providing only a website address or hyperlink to the webpage is not sufficient to make the materials of record. *In re ADCO Indus.-Techs., L.P.*, 2020 USPQ2d 53786, at *2 (citing *In re Olin Corp.*, 124 USPQ2d 1327, 1331 n.15 (TTAB 2017); *In re HSB Solomon Assocs., LLC*, 102 USPQ2d 1269, 1274 (TTAB 2012); TBMP §1208.03); TMEP §814.

Applicant has a duty to respond directly and completely to this requirement for information. *See In re Ocean Tech., Inc.*, 2019 USPQ2d 450686, at *2 (TTAB 2019) (citing *In re AOP LLC*, 107 USPQ2d 1644, 1651 (TTAB 2013)); TMEP §814. Failure to comply with a requirement for information is an independent ground for refusing registration. *In re SICPA Holding SA*, 2021 USPQ2d 613, at *6 (TTAB 2021) (citing *In re Cheezwhse.com, Inc.*, 85 USPQ2d 1917, 1919 (TTAB 2008); *In re DTI P'ship LLP*, 67 USPQ2d 1699, 1701-02 (TTAB 2003); TMEP §814).

If the applicant responds to the refusal to register, the applicant must also address the following refusal.

FAILURE TO FUNCTION AS A MARK (CLASS 9 ONLY)

Registration is refused because the applied-for mark, as used on the specimen of record, does not function as a trademark to indicate the source of applicant's goods and to identify and distinguish them from others. Trademark Act Sections 1, 2, and 45, 15 U.S.C. §§1051-1052, 1127; *In re Maugus Mfg., Inc.*, 2021 USPQ2d 1100, at *6 (TTAB 2021) (citing *In re DePorter*, 129 USPQ2d 1298, 1299 (TTAB 2019)); TMEP §§904.07(b), 1202 *et seq.*

The applied-for mark, as shown on the specimen, does not function as a trademark because it appears on the bottom right of the software along with other icons used to search the site, i.e., home, projects, plan, bio sites. As such, the mark is not presented in such a manner that would be perceived as indicating the source of the software.

Whether a designation functions as a mark depends on the commercial impression it makes on the relevant public; that is, whether consumers would likely regard it as a source-indicator for the goods. *See In re Vox Populi Registry Ltd.*, 25 F.4th 1348, 1351, 2022 USPQ2d 115, at *2 (Fed. Cir. 2022) (citing *In re AC Webconnecting Holding B.V.*, 2020 USPQ2d 11048, at *3 (TTAB 2020)); *In re Maugus Mfg., Inc.*, 2021 USPQ2d 1100, at *6 (TTAB 2021) (citing *In re Eagle Crest, Inc.*, 96 USPQ2d 1227, 1229 (TTAB 2010); *In re Aerospace Optics, Inc.*, 78 USPQ2d 1227, 1229 (TTAB 2010)); TMEP §1202. The specimen and any other relevant evidence of use is reviewed to determine whether an applied-for mark is being used as a trademark. *See In re Vox Populi Registry Ltd.*, 25 F.4th at 1351, 2022 USPQ2d 115, at *2-3; *In re Fallon*, 2020 USPQ2d 11249, at *4 (TTAB 2020) (quoting *In re Bose Corp.*, 546 F.2d 893, 897, 192 USPQ 213, 216 (C.C.P.A. 1976)).

Not every designation that appears on a product or its packaging functions as a trademark, even though it may have been adopted with the intent to do so. *In re Tex. With Love, LLC*, 2020 USPQ2d 11290, at *2-3 (TTAB 2020) (quoting *In re Pro-Line Corp.*, 28 USPQ2d 1141, 1142 (TTAB 1993)). Thus, a designation is registrable only if it functions as an identifier of the source of applicant's goods. *In re Maugus Mfg., Inc.*, 2021 USPQ2d 1100, at *6 (citing *In re Bose Corp.*, 546 F.2d 896-97, 192 USPQ at 215); *Univ. of Ky. v. 40-0, LLC*, 2021 USPQ2d 253, at *24 (TTAB 2021) (citing *In re The Ride, LLC*, 2020 USPQ2d 39644, at *5 (TTAB 2020)); TMEP §1202.

Response options. Applicant may respond to this refusal by satisfying one of the following for each applicable class:

(1) **Submit a different specimen** (a verified “[substitute](#)” [specimen](#)) that (a) was in actual use in commerce at least as early as the filing date of the application or prior to the filing of an amendment to allege use and (b) shows proper trademark use for the goods in the application or amendment to allege use. A “verified substitute specimen” is a specimen that is accompanied by the following statement made in a signed affidavit or supported by a declaration under 37 C.F.R. §2.20: “The substitute (or new, or originally submitted, if appropriate) specimen(s) was/were in use in commerce at least as early as the filing date of the application or prior to the filing of the amendment to allege use.” The substitute specimen cannot be accepted without this statement.

Examples of specimens. Specimens for goods include a photograph of (1) the actual goods bearing the mark; (2) an actual container, packaging, tag or label for the goods bearing the mark; or (3) a point-of-sale display showing the mark directly associated with the goods. *See* 37 C.F.R. §2.56(b)(1), (c); TMEP §904.03(a)-(m). A webpage specimen submitted as a display associated with the goods must show the mark in association with a picture or textual description of the goods and include information necessary for ordering the goods. TMEP §904.03(i); *see* 37 C.F.R. §2.56(b)(1), (c). Any webpage printout or screenshot submitted as a specimen must include the webpage's URL and the date it was accessed or printed on the specimen itself, within the TEAS form that submits the specimen, or in a verified statement under 37 C.F.R. §2.20 or 28 U.S.C. §1746 in a later-filed response. *See* 37 C.F.R. §2.56(c); TMEP §904.03(i).

(2) **Amend the filing basis to [intent to use under Section 1\(b\)](#)** for which no specimen is required before publication. *See* TMEP §806.03(c). This includes withdrawing an amendment to allege use, if one was filed. This option will later necessitate additional fee(s) and filing requirements, including a specimen.

To amend the basis from Section 1(a) to Section 1(b), applicant must submit the following statement, verified with an affidavit or signed declaration under 37 C.F.R. §2.20: **“Applicant has a bona fide intention to use the mark in commerce and had a bona fide intention to use the mark in commerce as of the application filing date.”** 37 C.F.R. §2.34(a)(2); TMEP §806.01(b); *see* 15 U.S.C. §1051(b); 37 C.F.R. §2.35(b)(1).

To withdraw an amendment to allege use, applicant must make a statement in the record requesting that the amendment to allege use be withdrawn.

For more information about the response options above and instructions on how to submit a different specimen using the online Trademark Electronic Application System (TEAS) form, see the [Specimen webpage](#).

Although applicant’s mark has been refused registration, applicant may respond to the refusal(s) by submitting evidence and arguments in support of registration.

If applicant responds to the refusal(s), applicant must also respond to the requirement(s) set forth below.

IDENTIFICATION

For the reasons specified below, the identification of goods and/or services is indefinite and must be clarified. *See* 37 C.F.R. §2.32(a)(6); TMEP §1402.01.

For goods, applicant must amend the identification to specify the common commercial or generic name of the goods. *See* TMEP §1402.01. If the goods have no common commercial or generic name, applicant must describe the product, its main purpose, and its intended uses. *See id.*

For services, applicant must amend the identification to specify the common commercial or generic name of the services. *See* TMEP §1402.01. If the services have no common commercial or generic name, applicant must describe or explain the nature of the services using clear and succinct language. *See id.*

Here, the applicant must specify whether the software is downloadable or recorded.

Applicant may adopt the following identification, if accurate:

International Class 009: **Downloadable** computer software for displaying, organizing, aggregating, and optimizing social media profiles, links, and user-selected content; **Downloadable** application software for displaying, organizing, aggregating, and optimizing social media profiles, links, and user-selected content; Downloadable software applications for displaying, organizing, aggregating, and optimizing social media profiles, links, and user-selected content

International Class 042: Provision of online non-downloadable software for displaying, organizing, aggregating, and optimizing social media profiles, links, and user-selected content; Software as a service (SAAS) featuring software for displaying, organizing, aggregating, and optimizing social media profiles, links, and user-selected content

Applicant's goods and/or services may be clarified or limited, but may not be expanded beyond those originally itemized in the application or as acceptably amended. *See* 37 C.F.R. §2.71(a); TMEP §1402.06. Applicant may clarify or limit the identification by inserting qualifying language or deleting items to result in a more specific identification; however, applicant may not substitute different goods and/or services or add goods and/or services not found or encompassed by those in the original application or as acceptably amended. *See* TMEP §1402.06(a)-(b). The scope of the goods and/or services sets the outer limit for any changes to the identification and is generally determined by the ordinary meaning of the wording in the identification. TMEP §§1402.06(b), 1402.07(a)-(b). Any acceptable changes to the goods and/or services will further limit scope, and once goods and/or services are deleted, they are not permitted to be reinserted. TMEP §1402.07(e).

For assistance with identifying and classifying goods and services in trademark applications, please see the USPTO's online searchable [U.S. Acceptable Identification of Goods and Services Manual](#). *See* TMEP §1402.04.

WORD OF THE DAY

Did you know?

Cite, Sight, and Site

As **homophones**—words that sound alike but are distinct— *cite*, *sight*, and *site* are easily confused, but they have different meanings, uses, and origins.

Cite is most often encountered in the sense of "to name in a **citation**"—that is, a line or short section taken from a piece of writing or a speech; it may also mean "to mention as an example" or "to order to appear in a court of law." *Cite* is from the Latin *citare*, "to rouse, call on, summon," source too of *citation* and *recite*.

Most of the senses of *sight* are concerned with seeing. A wonderful spectacle might be described as a *sight*, as might the general capacity to see anything ("my sight is not as good as it once was"). *Sight* is also used in a number of fixed phrases, such as "out of sight, out of mind," "sight unseen," and "set one's sights on." *Sight* comes from Old English *gesiht*, meaning "the faculty or act of sight, thing seen."

Site is most often concerned with location; it is related to *situate*, "to locate," and *situation*, "relative position or combination of circumstances at a particular moment." A building site is the place where a building is, or will be, located. In contemporary English, *site* is frequently used as a shortened form of *website*, to refer to the location of a group of web pages. *Site* comes from Latin *situs*, meaning "place, position, site."

Associating *citation* with *cite*, *eyesight* with *sight*, and *situate* with *site* may be helpful in applying these correctly.

United States Patent and Trademark Office (USPTO)

USPTO OFFICIAL NOTICE

Office Action (Official Letter) has issued
on September 14, 2023 for
U.S. Trademark Application Serial No. 97711095

A USPTO examining attorney has reviewed your trademark application and issued an Office action. You must respond to this Office action to avoid your application abandoning. Follow the steps below.

- (1) [Read the Office action](#). This email is NOT the Office action.
- (2) **Respond to the Office action by the deadline** using the Trademark Electronic Application System (TEAS). Your response, or extension request, must be received by the USPTO on or before 11:59 p.m. **Eastern Time** of the last day of the response deadline. Otherwise, your application will be [abandoned](#). See the Office action itself regarding how to respond.
- (3) **Direct general questions** about using USPTO electronic forms, the USPTO [website](#), the application process, the status of your application, and whether there are outstanding deadlines to the [Trademark Assistance Center \(TAC\)](#).

After reading the Office action, address any question(s) regarding the specific content to the USPTO examining attorney identified in the Office action.

GENERAL GUIDANCE

- [Check the status of your application periodically](#) in the [Trademark Status & Document Retrieval \(TSDR\)](#) database to avoid missing critical deadlines.
- [Update your correspondence email address](#) to ensure you receive important USPTO notices about your application.
- [Beware of trademark-related scams](#). Protect yourself from people and companies that may try to take financial advantage of you. Private companies may call you and pretend to be the USPTO or may send you communications that resemble official USPTO documents to trick you. We will never request your credit card number or social security number over the phone. Verify the correspondence originated from us by using your serial number in our database, [TSDR](#), to confirm that it appears under the “Documents” tab, or contact the [Trademark Assistance Center](#).
- [Hiring a U.S.-licensed attorney](#). If you do not have an attorney and are not required to

have one under the trademark rules, we encourage you to hire a U.S.-licensed attorney specializing in trademark law to help guide you through the registration process. The USPTO examining attorney is not your attorney and cannot give you legal advice, but rather works for and represents the USPTO in trademark matters.
